AI Devs Competition India

Challenge #1

Challenge Overview

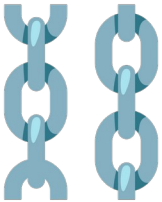
Objective

The task is to create a flow in Langflow that demonstrates advanced prompt engineering techniques.

Requirements

Input: The provided "Prompt Engineering Guide" text file

Output: A concise yet comprehensive TLDR (Too Long; Didn't Read) summary



Evaluation

Primary Metric: The TLDR will be assessed based on its accuracy in answering 10 similarity questions.

Secondary Metric: Token count will serve as a tiebreaker. Favor concise summaries that maintain completeness.
